

ENVIRONMENTAL POLICY STATEMENT – YEAR 2009

Franco Tosi Meccanica S.p.A. guides the processes performed in its production site with the aim of guaranteeing environmental compliance and promoting and sustaining environmental protection within the organisation.

Franco Tosi Meccanica S.p.A.'s industrial activity targets the following sectors of production and activities:

- construction of steam-driven and hydraulic turbines;
- mechanical processing of machinery components, also on behalf of third parties;
- heat exchange equipment.

The company's activities as a whole will in the long term continue to maintain the company's industrial activity rooted in the local area, reorganising production in a number of areas.

Regarding the production site's impact on the environment, and specifically on the urban area, Franco Tosi Meccanica S.p.A. has decided to apply and maintain an Environmental Management System in its production site that conforms to UNI EN ISO 14001:2004 standards, in order to:

- ensure conformity with current environmental law and regulations, including the conditions of contracts signed with customers;
- keep environmental aspects and impact effectively under control and, where possible, adopt solutions aimed at improvement in this area;
- provide employees with incentives to participate actively in the process;
- adopt all possible measures for preventing waste of energy and resources;
- prepare measures ensuring that third parties working for the company adopt forms of behaviour, practices and procedures consistent with the principles contained in this Policy;
- collaborate with the local territory and institutions in relation to environmental issues, with a commitment to provide a prompt, transparent response.

Franco Tosi Meccanica's Environmental Management System demonstrates company management's commitment to:
